Hub Defenders™

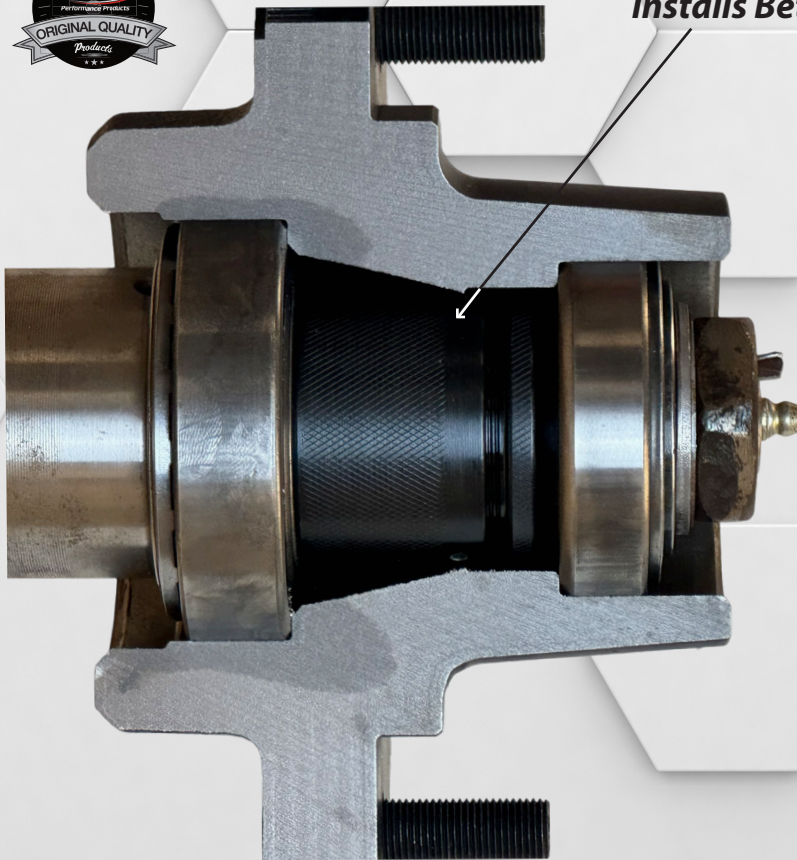

Unlock Your Hub's Performance!

A Difference You Can Feel!
Available for Most Popular Hub Applications
Race Cars • High Performance Street • Trailers

Installs Between the Hub Bearings

- ***Adjustable for each hub***
- ***Eliminates excessive bearing pre-load & end-play***
- ***Keeps Bearings Fully Seated & Square to Races***
- ***Eliminates Bearing Spin on Spindle***
- ***Reduces Bearing Temps***
- ***Increases Free Spin by 1200%+!***

Custom Applications Available

12 X More Free Spin!
Increases Free Roll Speed in Corner
Reduces Hub Maintenance

Hub Defender™ Low Drag Bearing Kits

Reduce Friction. Lower Bearing Temperatures. Increase Performance.

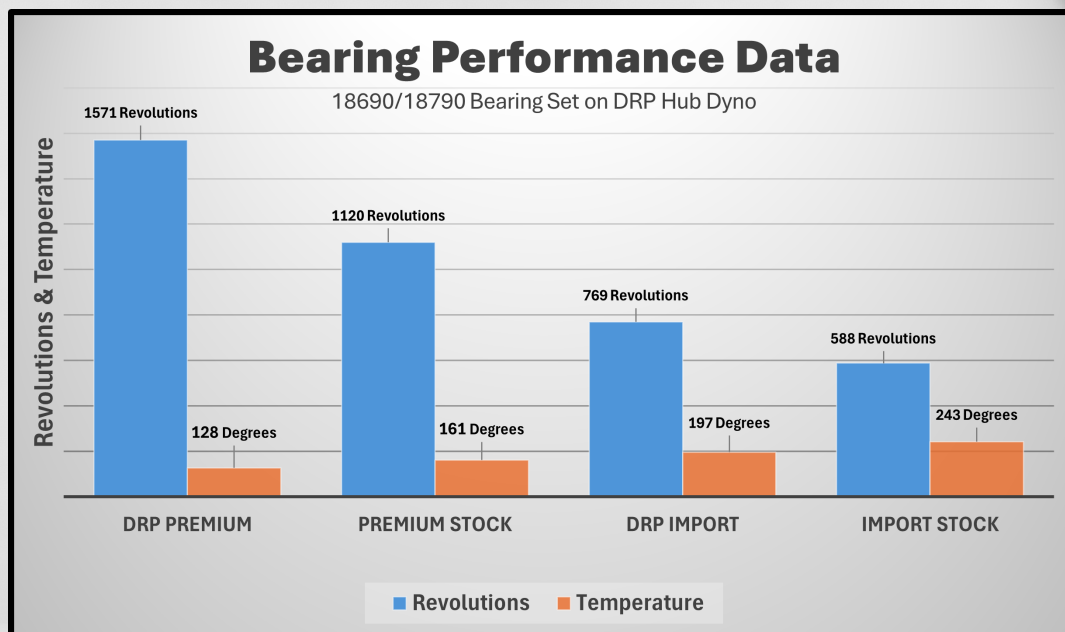

We start with premium quality high speed bearings. Tested on our Hub Dynamometer. Then we process each bearing and race to achieve the finest surface finish.

The end result is a premium quality high performance bearing that runs cooler with less resistance and lasts longer.

- High Quality Bearings
- Ultra Smooth Surface Finish
- Reduces Friction
- Lowers Temperature
- Reduces Failures
- Increases Bearing Life

**Available for most popular hub applications.
Race Cars • High Performance Street • Trailers**

Hub Defender™ Ultra Low Drag Seals

Reduce Seal Drag. Increase Performance.

Ultra Low Drag

Air Gap

Zero Drag

- Increases Hub Free Spin
- Light Weight
- Reusable

ULD - Ultra Low Drag

100% Seal, PTFE Sealing Element, Ideal for Most Applications, 10X+ Reduction in Seal Drag vs. Stock Seals, Lightweight Aluminum Housing.

AG - Air Gap

0% Seal - Highest Performance, No Drag, Ideal for Dry, Dedicated Race Applications, Lightweight Billet Aluminum Housing

ZD - Zero Drag

"50%" Seal - Labyrinth Style, Virtually No Drag, Ideal for Dry, Dedicated Race Applications, Billet Aluminum Housing

*Available for many popular hub applications.
Race Cars • High Performance Street*

Ultra Low Drag Bearing Grease

Reduce Friction. Lower Bearing Temperatures. Increase Performance.

Guaranteed to be the best high speed wheel bearing grease you've ever used!

• 50g Syringe Packs 16 Bearings	007 10756	Syringe - 50g	\$47.93
• 100g Cartridge Packs 32 Bearings	007 10753	Mini Cartridge - 100g	\$78.59
• 290g Cartridge Packs 124 Bearings	007 10750	Full Size Cartridge - 390g	\$238.30

FOR USE ONLY IN HIGH SPEED BEARINGS

Tech Tip

How Much Grease to Use in Your Hub Bearings

More is not always better. Over-packing high speed bearings creates additional heat as the bearings try to evacuate the excess grease. The heat separates the lubricant from the binding agents during evacuation, ultimately leaving the bearing with less lubrication.

A 50% fill, injecting every other bearing roller with grease, is more than sufficient for high performance bearings. No extra grease in the hub is needed, as the bearings have no mechanism to pull the grease from the hub into the bearing.

DRPPerformance.com

DRPUNIVERSITY.TV

Who ever thought wheel bearing grease could be such as drag? Our Ultra Low Drag Wheel Bearing Grease from Kluber Lubrication is unlike any other and by far the best we've tested - by a wide margin!

Teams have won with this grease for years from Daytona to Winchester to Bristol to Martinsville.

We recommend repacking properly set-up hub bearings every 1500-2000 laps or 750-1000 miles for high performance race applications.

Hub Dyno

We operate by the motto "You can't improve what you don't measure." To measure friction in wheel hubs we built a Hub Dyno. Our Dyno will spin the hub under full track load while measuring energy consumed, bearing temperature, RPM & more.

How to use the Hub Defender™ Installation Tool:

Step 1:
Remove Hub & Clean Bearings.

Step 2:
Place hub on tool with bearings. Place measurement caliper on top. Holding light force on caliper, press zero.

Step 3:
Remove hub. Place bearings and spacer on tool. Place caliper on top. Adjust spacer until caliper reads zero (or other specified measurement.)

Customer Feedback:

"I've been racing for over 30 years and have never had a car roll this free!"

"...the car would literally try to roll off if the ground wasn't level, it was that free!"

"These spacers are freaking awesome!"

"badass."

"Excellent product from DRP. We have them in our cars and will never again be without them."

"Incredible difference."
